PRESENTATION OF THE PROJECT

3PM

Masterclass by Peter Hussey (IE)

We will explore some exercises and activities that we developed in Crooked House to encourage young people to explore how they learn, to take risks, and to share their opinions in creative and non-threatening ways. The workshop will be for teachers and drama facilitators who work with young people. Young people can also join.

Masterclass by Juan Escalona Corral (ES)

When doing theatre, the space is one of the core elements we use. But it is not only crucial when putting something on the stage, but also on our drama workshops. How we position ourselves and the group, and how the participants move around the space is also key for delivering drama workshops.

Masterclass by Helena Sandvik (NOR)

A workshop in contact improvisation. We will go through exercises focusing on trust and co-operation, movements that occurs in the playing and moving around. These exercises can inspire to use more movements in a show, out from the actor's own body language and movements. All participants in the workshop will have to join in and go for it!

6PM

FEEDBACK COLLECTION SESSION
